

What is Intelligent Process Automation?

It's how humans and robots can work together to deliver digital transformation

Intelligent Process Automation (IPA) is the powerful combination of DPA, RPA and AI technologies. When used together, they will drive enterprise-wide automation and transformation. Here are the advantages they can deliver...

Your Digital Information Conveyor Belt

Bizagi transforms organizations through intelligent process automation. It's process automation platform connects people, applications, robots and information to deliver the engaging experience that today's customers demand. Fueled by a community of 1 million users, Bizagi powers over 1000 organizations worldwide including adidas, BAE Systems and Old Mutual.
